AN INCONVENIENT TRUTH

An updated slideshow version of the Academy Award-winning film. Join us for this 60-90 minute slideshow shown by certified *Climate Project* volunteer Rev. Rebekah Simon-Peter. **Free & open to the public**

THEN JOIN US FOR A WORKSHOP FROM A FAITH-BASED PERSPECTIVE

Saturday, April 18 • 9-3p

REDUCE, REUSE, RECYCLE, REPENT

For the sake of Heaven and Earth!

Featuring: **REV. REBEKAH SIMON-PETER**

Stewardship of the creation is at the core of many of the world's major religions. Massive population growth combined with technological advances, however, has increased our impact on the planet. The earth is suffering and crying out to us. It is time for persons of faith to make stewardship of the Creation a top priority once again. This hands-on workshop, grounded in sacred texts and teachings, gives persons of faith practical tools to make a difference in their lives, houses of worship and places of work.

Fee: \$40 - Pre-registration
